

RITIK

Full Stack Developer

+91-9548456073 | mehraritikit123@gmail.com | Saharanpur, India | [LinkedIn](#) | [GitHub](#)

PROFILE SUMMARY :

As a Website designer and developer my objective is to make a positive impact on clients , co-workers , and the internet using my skills and experience to design compelling and attractive web applications .

EXPERIENCE/PROJECTS:

JAVA FULL STACK – DUCAT IT Training School Noida (March 2024- October 2024)

- Completed an extensive Java Full Stack development program, mastering core programming concepts, object-oriented programming (OOP), data structures, and algorithms.
- Developed and deployed dynamic web projects utilizing Java, Spring Boot, Hibernate/JPA for backend business logic, and MySQL for secure database management.
- Gained hands-on experience building end-to-end web applications by integrating robust backend technologies with responsive frontend interfaces.

Banking Management System (Used Technology - Java (JDK-17))

- Developed a Java-based application enabling account creation, balance inquiry, fund transfer, and transaction history management. Implemented using Core Java, JDBC, and MySQL with a secure and user-friendly interface .

Laravel Developer | Xiconet Technology (August 2025 – Present)

- **Completed a 3-month intensive Laravel training, gaining hands-on expertise in MVC architecture, Eloquent ORM, routing, and database management.**
- Developed and maintained Laravel web applications with scalable architecture, including building the e-commerce platform Attreestyle (<https://attreestyle.com>) equipped with a cart system, order management, and an administrative panel.
- Developed and maintained Laravel web applications with scalable architecture, including building the e-commerce platform Sovrika (<https://sovrika.com>) equipped with a cart system, order management, and an administrative panel.
- Designed and developed a secure and responsive web application for Delhi Police. <https://mysmartio.com> Implemented **Online FIR registration module** with authentication, case tracking, and database integration. Optimized backend queries for scalability and ensured compliance with official standards.
- Managed live website: <https://metacorp.in> with dynamic content and Blade components.
